

## Blade free iLASIK

Call us at **915.545.2010**  
to set up your free  
LASIK consultation.

We are pleased to offer  
financing with interest  
free options for up to  
18 months.

Every year, nearly a million Americans choose to have laser vision correction. Their reasons are varied and include gaining greater freedom from the hassles and expense of glasses and contacts, enjoyment of athletics and activities without being held back by corrective eyewear or just even to be seen by the world without thick heavy glasses in the way. For every individual, the choice to have laser vision correction is a very personal one.

We are committed to providing you with the personalized knowledge you need to make your decision. Call our office to set up a comprehensive LASIK consultation. There is no charge for the visit. We will answer all of your questions, give you a tour of our state-of-the-art center and assess whether you are a good candidate for surgery using our advanced diagnostic technology.

We are dedicated to providing you with professional, individualized care using the safest, most advanced technology available. Dr. Foote is the only LASIK surgeon in El Paso who both has fixed on-site lasers and performs all pre- and post-operative care for all patients. We provide a comprehensive platform of laser corrective procedures including all laser LASIK using the Intralase IFS laser, EpiLASIK, traditional LASIK, Intacs intracorneal ring segments and femtosecond laser corneal transplantation. All treatments are individually tailored using CustomVue wavefront technology.

Call our office at 915.545.2010 and take the first step in gaining a life with greater freedom from contacts and glasses!
